

Sun Shield Solar Screens Estimate Worksheet

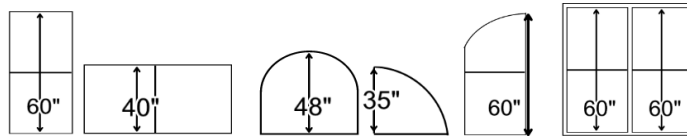

This worksheet is to provide us with information to help in giving you an estimate for your new solar screens. With the worksheet and pictures of your windows that you want we can give you a pretty accurate estimate. Keep in mind, this is just an estimate and without us meeting with you and determining how the screens will attach and what style and color you choose.

Measure the Width of your windows

Measure the Height of your windows

List your measurements here

	Width	Height	Arches
Window #1	_____	_____	_____
